

Chiara Di Gravio

 ChiaraDG |  <https://chiaradg.github.io> |  digravio.chiara@gmail.com

EDUCATION

- Vanderbilt University** 2018 - 2023
PhD in Biostatistics *Nashville, TN (USA)*
- Thesis: *Designs and Analysis Methods for Modern Biomedical Studies with Longitudinal Outcomes*
-
- The University of British Columbia** August 2015
MSc in Statistics *Vancouver, BC (Canada)*
- Thesis: *Instrumental variables selection: a comparison between regularization and post-regularization methods*
- Adviser: Gabriela Cohen Freue, PhD
- Sapienza University of Rome** March 2013
MSc in Actuarial and Financial Science *Rome, Italy*
- Thesis: *Automobile insurance and direct compensation: Italian and French systems*
- Adviser: Paola Verico, PhD
- Conferred cum laude
- Sapienza University of Rome** October 2009
BSc in Statistics, Finance and Insurance *Rome, Italy*
- Conferred cum laude

WORK EXPERIENCE

- Research Associate** July 2023 - Present
Imperial College *London (UK)*
- Provided statistical analyses for the Real-time Assessment of Community Transmission (REACT), the Cohort Study of Mobile Phone Use and Health (COSMOS) and the Airwave Study.
Adviser: David C Muller, PhD
- Research Assistant** Jan 2019 - June 2023
Vanderbilt University *Nashville, TN (US)*
- Design and analysis of resource efficient studies for longitudinal data. Advisers: Jonathan S Schildcrout, PhD and Ran Tao, PhD
- Integration of Randomized Controlled Trials and Observational Data. Adviser: Amir Asiaee, PhD
- Provided statistical analyses for The Vanderbilt Inpatient Cohort Study (VICS). Advisers: Jonathan S Schildcrout, PhD and Sunil Kripalani, MD
- Statistician** Sept 2015 - July 2018
MRC Lifecourse Epidemiology Unit *Southampton, UK*
- Statistician for the “Nutrition, Development and Lifelong Health in Transitioning Populations” programme

PRESENTATIONS

Invited Oral Presentation

CMStatistics (London, UK)

December 2024

Studying Mortality in Critically Ill Patients: an Analysis of Ordinal Longitudinal Data under Case-Control Sampling [[Slides](#)]

International Biometrics Conference (Atlanta, USA) December 2024
Analysis of Ordinal Longitudinal Data under Case-Control Sampling: Studying the Association between Glycocalyx Degradation and Mortality in Critically Ill Patients [\[Slides\]](#)

CMStatistics (Virtual) December 2023
Analysis of Ordinal Longitudinal Data under Case-Control Sampling: Studying Mortality in Critically Ill Patients [\[Slides\]](#)

Contributed Oral Presentation

Demystifying Long COVID (Madrid, Spain) December 2023
The Relationship between Self-Reported Persistent Symptoms post-COVID-19 and Employment among Adults in England, UK

ENAR 2023 Spring Meeting (Nashville, USA) March 2023
Efficient Study Designs and Analysis Methods for Binary Longitudinal Data: an Application to the Lung Health Study [\[Slides\]](#)

ENAR 2022 Spring Meeting (Houston, USA) March 2022
Efficient Design and Analysis of a Two-Phase Study with Longitudinal Binary Outcomes [\[Slides\]](#)

ENAR 2021 Spring Meeting (Virtual) March 2021
Design and Analysis of Two-Phase Studies with Multivariate Longitudinal Outcomes [\[Slides\]](#)

ENAR 2020 Spring Meeting (Virtual) March 2020
Multiple imputation of an expensive covariate in outcome dependent sampling designs for longitudinal data [\[Slides\]](#)

20th Annual SNEHA - MRC International Workshop (Pune, India) February 2017
Comparing BMI with skinfolds to estimate age at adiposity rebound and associations with later cardio-metabolic risk markers

Department Seminars

Vanderbilt Department of Biostatistics Weekly Seminar (Nashville, USA) September 2021
Design and Analysis of Two-Phase Studies with Multivariate Longitudinal Outcomes [\[Slides\]](#)

UBC Department of Statistics Weekly Seminar (Vancouver, Canada) August 2015
Instrumental variables selection: a comparison between regularization and post-regularization methods

Contributed Poster Presentations

10th Congress on Development Origins of Health and Disease (Rotterdam, NL) October 2017
The association of maternal age with fetal growth and newborn measures: the Mumbai Maternal Nutrition Project (MMNP)

61th Annual Scientific Meeting: Society of Social Medicine (Manchester, UK) September 2017
Comparing BMI with skinfolds to estimate age at adiposity rebound and associations with later cardio-metabolic risk markers

Nutrition and Nurture in Infancy and Childhood (Grange-over-Sands, UK) June 2017
A pre-conceptional micronutrient-rich food-based snack for women in Mumbai slums did not increase ultrasound measures of fetal growth

19th Annual SNEHA - MRC International Workshop (Hyderabad, India) February 2016
A pre-conceptional micronutrient-rich food-based snack for women in Mumbai slums did not increase ultrasound measures of fetal growth

SOFTWARE

dames Author and Maintainer
R package to run designs and analysis methods for resource efficient studies with a binary longitudinal outcome. Available on [GitHub](#).

binaryMM Maintainer
R package to fit flexible marginalised models for binary correlated outcomes. Available on [CRAN](#).

TEACHING AND MENTORSHIP

Teaching Assistant

Imperial College London *London, UK*

- Introduction to Statistical Thinking and Data Analysis (Fall 2023, 2024)

Vanderbilt University *Nashville, TN (USA)*

- BIOS7330 Regression Modelling Strategies (Spring 2022)
- BIOS7632 Advanced Statistical Inference (Statistical Learning) (Spring 2021)
- DS5440 Data Science Algorithms (Fall 2020, 2021, 2022)
- MSCI Biostatistics II (Spring 2020)
- BIOS6301 Introduction to Statistical Computing (Fall 2019)
- BIOS6312 Modern Regression Analysis (Spring 2019)

The University of British Columbia *Vancouver, BC (Canada)*

- STAT300 Intermediate Statistics for Applications (Fall 2013, 2014).
- STAT200 Elementary Statistics for Applications (Spring 2014, 2015 and Summer 2015).

Guest Lecturer

Imperial College London *London, UK*

- “*Logistic Regression and Optimization Algorithms*”. Machine Learning (Spring 2024)
- “*Regularised Regression Models*”. Machine Learning (Spring 2024)

Vanderbilt University *Nashville, TN (USA)*

- “*Overview of Maximum Likelihood Estimation*”. BIOS7330 Regression Modelling Strategies (Spring 2022 and 2023)

Research Supervision

MRC Lifecourse Epidemiology Unit *Southampton, UK*

- Co-supervisor for students in the Statistics with Application in Medicine MSc at the University of Southampton
 - Adam Von Ende (Summer 2017). Main Supervisor: Sarah Crozier, PhD
 - Daniella Gossage (Summer 2016). Main Supervisor: Clive Osmond, PhD

AWARDS

ENAR Distinguished Student Paper Award	2023
W. S. Gossett Award for Exceptional Research	2022
<i>Awarded by the Department of Biostatistics at Vanderbilt University for exemplary dissertation work.</i>	
Exceptional TA (Teaching Assistant) Award	2021
<i>Selected by students and faculty in the Data Science Institute at Vanderbilt University.</i>	
Best Poster Award	2016
<i>Awarded at the 19th Annual SNEHA - MRC International Workshop. Pune, India</i>	
Faculty of Graduate Studies, UBC International Partial Tuition Scholarship	2014
UBC Department of Statistics Graduate Entrance Scholarship	2013
Student Collaboration Scholarship	2009
<i>Awarded by the Department of Statistics at Sapienza University of Rome based on student's academic performance</i>	

SKILLS

Languages & Tools:	R, STATA, Python, SPSS, SQL (basic), Git and GitHub
Dashboards	Tableau (basic)
Languages	Italian (native), English

EXTRACURRICULAR ACTIVITIES

Reviewer

- From June 2016, peer-reviewed articles for:
BMJ Open, Pediatrics, Obesity, International Journal of Epidemiology, JAMA Pediatrics, Journal of Epidemiology and Community Health, BMC Pediatrics

Biostatistics Graduate Student Association, Vanderbilt University

- Secretary (2023)
- Treasurer (2020-2022)

MRC Lifecourse Epidemiology Unit

- Organised and led R training session for statisticians of the MRC Lifecourse Epidemiology Unit (2017)
- Programme representative to liaise with the MRC Lifecourse Epidemiology Unit publications database team (2017-2018)

Coursera

- Member of the Global Translator Community (2015 - 2020)
- Specializations completed (2015 - present): Google Data Analytics (Google), Python for everybody (University of Michigan), Data science (Johns Hopkins University), Machine learning (University of Washington), Applied data science with Python (University of Michigan)

The University of British Columbia

- Co-organised the 2014 SFU/UBC Statistics Joint Seminar, a biannual seminar intended to give UBC and SFU graduate students a chance to raise awareness about areas of research in statistics, network with other students and faculty members, and share their research
- Organised weekly Italian classes for beginners at St. John's College UBC (Fall 2013)

Last updated: January 5, 2025
